## Classroom Friendship Program

Ages 4-6

### Worksheet #11, #12 and #13

All the children should stand along the wall facing the teacher and the teacher, will take one of the pictures, for example, 'מיין חבר'טע וויינט און איך פרעג איר פארוואס זי וויינט'/my friend is crying and I ask her why she is crying', and show it to them.

Tell them that you will call up 2 girls who will act out this scenario. One girl will look sad or cry, and the other girl, let's see what she will do! She should try to emulate the girl in the picture.

For each example, do it twice so that the children visualise these situations really well.

If you have puppets, a puppet show stand, or even just dolls, you can guide the girls to role play these scenarios that are on worksheet #11.

Show the children the chart on **worksheet #12**. It is a chart of what they have learned with **worksheet #11**, how to do favours and being thoughtful to others in their life. Explain the chart really well to the children, giving one or two examples that they would need to do at home, and then telling them that they will need to ask their parents -Tutty or Mummy - to fill out the chart for them and send it back to school the next week. If you give more than a week time for completing the chart, it loses the excitement and it just gets drawn out or forgotten.

If they practice at home what they have learned and fill out at least 5, they will get a little reward. Please offer a little reward, like a small prize, sweet, or honour.

### Worksheet #13

The children colour the pictures of **worksheet #13**. The teacher can ask her students which of these scenarios they are planning to to copy in life, or they can share any past experiences similar to the pictures.

# I do a good deed to someone else

(My friend, father, mother, sister, brother, neighbour, teacher)

I notice that my mother is resting on the couch with a book, I don't disturb. I play quietly with my toys.

My friend wants to have the red markers/crayons and I want them as well. I don't grab them away. I tell her "Please give them to me once you are done with them."
